***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15 are, drawn to an apparatus for producing and filling sausage meat, classified in class 452, subclass 32.
- II. Claims 16-22 are, drawn to a method for producing and filling sausage meat, classified in class 452, subclass 30.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process of producing and filling sausage meat can be performed by hand, which was the case before the advent of the sausage stuffing machine.

A telephone call was made to Mr. Richard Zimmermann on March 08, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
